From: Rohauer, Tanya Sent: Tuesday, November 13, 2001 6:25 PM To: Murphy, Harlan Cc: Schneider, Chip; St. Clair, Carol Subject: FW: BNPP/Enron Master Netting, Setoff, and Security Agreement

Transactions to be included:

ENA/ BNPP ISDA ECTRIC/BNPP ISDA ECL/BNPP ISDA ECTD/BNPP physical UK gas business

Bill does not want to include any of the brokerage agreements. Also, I beleive we have kept Metals out of everyhting thus far and should continue to do so. One point of note in the document is section 2 BNPP appears to have modified the language such that the Non Defaulting party can cherry pick which agreements it wants to terminate - this is unacceptable. To be honest, I am going to need your help walking me through this document as they have changed so much I am unclear in many instances what their changes accomplish. Please advise.

Thanks, Tanya

Hi, Georgi!

In light of the NYMEX being closed last week, the 5 paralegals are involved in a project right now that is taking up our extra time, so we don't know when we would be able to get to this project. Perhaps someone in your group could come to our area and copy these files. Just let us know who and when they will be coming and we will help them locate the documents.

Thanks!

I have completed an audit comparing the financial agreements that are established in the Global Contract System against the executed agreements that are scanned in Livelink.

I have identified the following counterparties as NOT having any agreements in Livelink. Please check your files for any executed agreement on these counterparties and forward them to me for immediate processing. Also, let me know if you are unable to locate any of these documents.

Your urgency in this matter would be greatly appreciated. Thanks, Georgi

Dear Carol and Marie:

Following our conversation with Marie and voice mail to Carol, we are attaching a version of the Master Netting Agreement that has been revised to reflect our comments and marked to show changes. As we indicated, we are interested in pursuing implementing the agreement. However, we are concerned that the cross-affiliate netting provision may not be enforceable. This concern has resulted in two important changes that are reflected in the attached markup: (i) we have changed the severability clause to provide that the agreement would survive even if Section 3 is not enforceable and (ii) we have removed the collateral provisions that are predicated on the operation of cross-affiliate netting.

Please contact me at the number below, or my colleague Mike Brogan (212 357 3204), with any questions or comments.

Best regards, Steve Bunkin

Paul, Matt and Edmund:

Attached is a copy of the Master Netting Agreement among BNP Paribas and Enron North America Corp., et al. It is imperative that this master netting agreement be executed as soon as possible tomorrow morning (11/27), so I am asking your assistance in getting this document signed. The UK entities to sign are EEFT, Enron Capital & Trade Resources Limited, Enron Credit Limited and Enron Metals Limited. Please leave the signature pages as set forth on the attached document, as Enron Metals may be deleted from the agreement. At this point, we aren't sure, so we will have it sign on a separate page and then if they are not a party to the agreement, we will omit their signature page.

Please take whatever steps are necessary to have the attached document signed ASAP. Harlan Murphy (713/345-2679 is the lawyer here in Houston who prepared the document. I think I would first check with Kay Young to see if we have a CA with them, and if so, is it still active. Maybe we can just work off that form since the counterparty has signed it before.

From: Hill, Robin Sent: Monday, October 08, 2001 1:48 PM To: Heard, Marie Subject: CLH

I had my first know down drag out with our friend CLH. We closed a Qwest deal last week (Monday 7:00 am, of course she was here all weekend working on it). Anyway, everyone was needing copies of the closing documents and they were all over me for them. So on Wednesday mid morning I went into her office and had Tim make copies. She came back from a meeting and as she was passing by I mentioned it to her and she lost it - Big Time! Everyone wanted to hide, I motioned for her to go into her office because she was making a scene and I shut the door. She kept going on and on and said that I should have went and got her out of her meeting (yeah right) instead of taking them off of her desk and to never ever take anything off of her desk again. What a piece of work!

I checked and Sara sent a message to Credit on 3/26/01 but obviously has had no response. You may want to respond to Mr. Martin and let him know that Sara did receive his message and that we were waiting on our Credit Department to respond and we will send them (Credit) another reminder that we are waiting to hear from them.

Sara: The second FPL entity is "FPL Energy Power Marketing Inc." It is the FPL entity that handles all trades for the non-regulated business units of FPL. We completed the ISDA agreements between Florida Power & Light Co. (the regulated utility) and ENA in early January and I then sent you on January 9th a red-line of the FPL Energy Power Marketing Inc./ENA drafts vs. the final executed Florida Power & Light Co./ENA agreements for ease of review, since the agreements were near twins though you may also recall that we had added a guaranty of FPL Group Capital Inc (FPL Energy Power Marketing Inc. debt is unrated, FPL Group Capital Inc debt is single A). I appreciate you assistance in helping to move this along. Regards, -Serge

Serge:

Sorry to take so long to respond. A few things:

(1) What is the correct legal name of the entity you are inquiring about? Is it the unregulated marketing arm of the regulated utility?

(2) There has not been a commercial push from the ENA perspective to set up a new agreement with FPL which explains why I cannot get our credit group to react. I'll broach the topic again when I hear from you.

Please let me know if you have any other questions.

Harlan,

With respect to the Calpine agreement, please remove the following entities as we neither have outstanding transactions nor do we anticipate having any: Sheridan Energy, Inc., DEI Texas, Inc., CPN Gas Marketing Company, Calpine Power Services Company. A further note on Calpine Power Services Company, effective 11/1/00, it was merged into Calpine Energy Services, LP. With Calpine, the Enron entities that should be covered are EPMI and ENA.

Dynegy UK should probably come off since we are only netting US and Canada exposures. Add Dynegy Coal Trading & Transportation, L.L.C. if we want coal covered. Enron entities should include EGLI, ECC, ERAC, EPMI, ENA, ENA Upstream Co. LLC; EES; Enron Coal Services Ltd.

Based on the latest Master Netting Agreement Assignment List, you are assigned to one or more "houses" to prepare a Master Netting Agreement. I am currently working on excising natural gas receivables from an existing gas receivable facility known as the Swee'P Receivables Facility. This "excisement" is a prerequisite to our actual execution of the various Master Netting Agreements on which you are working. In order for me to accomplish the excisement, I need to create a list of each of the non-Enron legal entities, which will be parties to the Master Netting Agreement you have been assigned. The legal entities are needed so that we may assure that none of these legal entities will have its payables to ENA transferred to Swee'P. The final submission of receivables is due on Monday, November 5th. The list I am requesting from you will allow Leslie Reeves to excise your complete "house" from the submission of receivables.

I know that each of you are swamped, but this excisement is a prerequisite to the execution of the Master Netting Agreements. Even if you have only a rough list of the entities in your house, please provide your best available information to me via email, copying the CCs listed on this email. Thank you for your assistance.

Best Regards, BNG

From: =09Otto, Randy =20 Sent:=09Thursday, November 22, 2001 1:03 PM To:=09Boyd, Samantha; Rohauer, Tanya
Cc:=09Espinoza, Veronica; Williams, Jason R (Credit); Johnston, Greg Subject:=09Mirant Canada's purchase of
TransCanada Pipelines trading business

On October 11, Mirant Canada Energy Marketing Ltd. purchased a substantial portion of TransCanada Pipeline's trading and marketing business. As a result, Mirant will be purchasing the entire business of TransCanada Energy Financial Products Limited, and will be taking assignment of the physical gas transactions/contracts of TransCanada Gas Services Inc. and TransCanada Gas Services, a division of TransCanada Energy Ltd.

As a result of this transaction, TransCanada Pipelines Ltd. will be terminating whatever credit support they provided for these entities and that credit support will be picked up by Mirant Corp, depending on the arrangements that we have negotiated. With respect to TransCanada Energy Financial Products Limited, it was agreed that the ISDA that is currently between Enron Canada Corp. and TransCanada Energy Financial Products Limited will be assigned to Mirant Canada Energy Marketing Ltd under the same credit terms as currently exist. Mirant Corp will issue a \$30 million USD guaranty to provide the credit support for this document, the same dollar amount that TransCanada Pipelines Ltd was providing. They have also agreed to provide whatever necessary collateral to cover their exposure, over the threshold, as a result of their purchasing this entity.

With respect to TransCanada Gas Services Inc., the only outstanding gas transactions are with Enron North America and these all relate to physical product. There is no contract between TransCanada Gas Services Inc. and Enron North America, but TCPL is currently providing a guaranty for this business. This guaranty will be terminated, and these transactions will be covered under a current Mirant Corp guaranty covering Mirant Canada Energy Marketing Ltd. for physical gas transactions with Enron North America. This current guaranty is for USD \$10 million and is of a sufficient amount to cover the current exposure as well as the exposure being brought over from TransCanada Gas Services Inc..

Finally, with respect to TransCanada Gas Services, a division of TransCanada Energy Ltd, there is currently a physical gas master with Enron Canada Corp. However, this was executed in 1993 and is outdated with respect to credit

provisions. I have been working with the credit contact at Mirant Canada to get a new physical master between ECC and Mirant Canada Energy Marketing Ltd. This new master would govern all existing trades between ECC and Mirant Canada, as well as those coming over from TransCanada Gas Services, a division of TransCanada Energy Ltd. However, in the interim, the TransCanada trades would still be covered by the existing master. TransCanada Pipeline will terminate their guaranty of this entity with respect to these transactions. Alternatively, Mirant Corp has agreed to amend their existing guaranty covering physical gas transactions between Mirant Canada Energy Marketing Ltd. and Enron Canada Corp by increasing the coverage from USD \$30 million to USD \$50 million. This entity also has some exposure with Enron North America, which will also be covered under the existing Mirant Corp. guaranty for USD \$10 million.

A contract between ENA and Mirant Canada Energy Marketing Ltd. would also be an ideal outcome out of this; however, the first priority is getting a new physical gas master between ECC and Mirant Canada Energy Marketing Ltd.

If there is any other information that I can provide on this matter, please do not hesitate to contact me.

Thanks

Marie,

Thanks for getting back to me so quickly. Providing financials for CSFB Europe Ltd and CSFBi will not be a problem. If we could get a copy of the guarantee Enron Corp. will provide, my credit dept. will send out the ISDA schedule.

One remaining question is will ECT collateralize their trades? Thanks in advance for your help.

Ms. Rosenthal:

Sara Shackleton just left for vacation until after Labor Day, but asked me to respond to your e-mail regarding sending us your completed ISDA schedule. Our Credit Department has said that Enron Corp. will provide a parent guaranty for ECT Investments, Inc., however, they would like for CSFB to also provide a guaranty since CSFB (Europe) is not a rated entity, or provide independent financial statements for CSFB (Europe). Our Credit Department did not provide us with a cap for the Enron Corp. guaranty.

You can send your ISDA Schedule to my attention and we will proceed with reviewing same.

Thank you.

Attached is the proposed form of guaranty that Enron Corp. will provide. ECT Investments would only collateralize above the threshold, since you would have a guaranty for the rest. We look forward to receiving your form of schedule.

I have received and reviewed Enron's faxed Authorizations for the ISDA Master Agreement between Amerada Hess Corporation and Enron North America Corp. and they are acceptable. I look forward to receiving the original Authorizations shortly.

I am also in receipt of the original ISDA Master Agreement, partially executed by Enron. I am in the process of attaching Amerada Hess Corporation's signature. As soon as the original Agreement is fully executed, I will overnight you a fully executed original ISDA Master Agreement.

Thank you for your cooperation throughout the entire drafting process.

Hello,

I work in the Credit Dept. and I'm trying to get a guaranty from a Mexican company. The deal is for physical methanol. Currently Credit is using the attached format.

I talked to Alan Aronowitz, and he said to check with you about any specific clauses you may have on guaranties in order to make them enforceable in Texas as well as in Mexico. Please let me know as soon as possible.

Dear Carol and Marie:

Following our conversation with Marie and voice mail to Carol, we are attaching a version of the Master Netting Agreement that has been revised to reflect our comments and marked to show changes. As we indicated, we are interested in pursuing implementing the agreement. However, we are concerned that the cross-affiliate netting provision may not be enforceable. This concern has resulted in two important changes that are reflected in the attached markup: (i) we have changed the severability clause to provide that the agreement would survive even if Section 3 is not enforceable and (ii) we have removed the collateral provisions that are predicated on the operation of cross-affiliate netting.

Please contact me at the number below, or my colleague Mike Brogan (212 357 3204), with any questions or comments.

Best regards, Steve Bunkin

Dear Carol and Marie:

Following our conversation with Marie and voice mail to Carol, we are attaching a version of the Master Netting Agreement that has been revised to reflect our comments and marked to show changes. As we indicated, we are interested in pursuing implementing the agreement. However, we are concerned that the cross-affiliate netting provision may not be enforceable. This concern has resulted in two important changes that are reflected in the attached markup: (i) we have changed the severability clause to provide that the agreement would survive even if Section 3 is not enforceable and (ii) we have removed the collateral provisions that are predicated on the operation of cross-affiliate netting.

Please contact me at the number below, or my colleague Mike Brogan (212 357 3204), with any questions or comments.

Best regards, Steve Bunkin

I checked with Harlan Murphy and he said it hadn't been signed, however, the master netting agreement references an executed master agreement dated as of 10/10/01. We haven't seen either the original or a copy of the signed agreement.

I don't know, all I know is that it was executed in order to get the master netting agreement done with Dynegy. You might check with Marie Heard since she worked on the master netting agreement.

I called and left a message w/Steven Smith and response before I went out. Robin Hill has the information -- not sure what the hold up is, Steven says it's b/c he is trying to find someone to sign the document, but that was almost two weeks ago.

I still haven't heard from these folks. I talked to Steven Smith last week on 10/24/01 and he said there were no issues with the MSA, but he was having a hard time finding someone to sign it. I told Jane this info last week. I haven't heard back from him either via email or phone, should I pursue this further? One more call before I go out on maternity leave? I know Jane is anxious to get this back signed.

Please advise.

Thanks

Subject: AEGIS Confidentiality Agreement

I have been assisting Ron Bertrand in reviewing the proposed Confidentiality Agreement between Enron and AEGIS. The original proposal was for a confidentiality agreement running to the benefit of AEGIS. A subsequent comment from Sara

Shackelton, however indicates that a two-way agreement is necessary. As such there are several issues clauses that must be included to address issues unique to underwriting insurance. Specifically (a) confidential information supplied in order to induce AEGIS to underwrite an insurance policy must be warranted (as in any insurance application), (b) AEGIS needs the right to share such information with reinsurers (who can be held to a confidentiality agreement), and (c) if a policy is purchased AEGIS need to retain the information in case there are any enforcement disputes that might turn on the application information. The AEGIS standard confidentiality agreement used in underwriting situations is attached. With regard to the revised draft of June 22nd. I note, in addition to the issues mentioned above, that the governing law provision is somewhat contradictory to the arbitration provisions and that the assumption in section 7 that confidentiality provisions will be incorporated in to the definitive agreement is usually not true for insurance policies. Please feel free to contact me directly (201-521-4691) to conclude this matter. <<underwriting.DOC>>

Recipients	['rick.antonoff@enron.com', 'athena.alexander@enron.com']
File	heard-m/inbox/master_netting/228.

See the new versions of the netting agreement forms below. All that has been done is to move the Force Majeure concept to paragraph 2(a) from 14(b). This allows the daily limit concept to stand in the UMAs, but it won't elevate to a default under the master netting arrangements. In certain instances if you want to "kill" the day limitation completely in the underlying agreement, you can always use the previous 14(b) language from the emailed docs earlier today. The docs remain at v1 (version 1).

I have attached a new credit worksheet. The new ISDA should be sent to Eric Shaw. I'd like to move forward with negotiations even as we are waiting for the order from the court on the hedging. We can always wait to execute until you are comfortable. We need to expedite this process; Rob Cooper and Craig Breslau want to trade ASAP and we must have the document in place. I am going to mirror the terms in the Master Firm that I will send to Hodge so please coordinate with him. Please call with any questions regarding the terms.

Thanks, Tanya

Har,

I'm reviewing the attachment you sent earlier today regarding the security interest that was to be established under the Master Setoff Agreement.

Here are my revisions for the guaranty Enron provided to Dynegy. If acceptable, please incorporate these changes into the Amendment and have two original execution copies signed on behalf of Enron. After execution on behalf of Enron, please send them to me. I will have them signed on behalf of Dynegy, and I will return one fully executed original to you for Enron's files.

Please contact me with any questions or comments you may have.

Thanks.

Har,

At long last, attached please find the revised agreement, in redline and in final. My instructions were to prepare execution copies, have them signed on behalf of the various Dynegy entities, and they are being hand delivered to Mr. Bradford in your credit group for execution on behalf of the various Enron entities. I also prepared guaranty agreements from Dynegy Holdings and from Enron Corp., each of which has been either executed or acknowledged on behalf of Dynegy. The decision upstairs was that this final version was "take it or leave it" for Enron.

A summary of the major changes:

1. All margining language and references to Collateral were removed. 2. All operating Underlying Master Agreements were included. 3. The "Group" payment concept was eliminated in Section 4 because it was not clear who would actually be making the payment.

Thanks.

Attached is a redline of the Master Netting Agreement. We are narrowing it to limit it to being a set off agreement. In this way we can avoid having to go through the threshold issues and collateral management issues, which in light of the fact we don't have a Collateral Annex are not insignificant. Please review it and call me with your comments. We are continuing our review and may have additional changes. In addition, we are compiling a list of the AEP companies which will need to be included. (See attached file: 86034.DOC)

We are organizing the data regarding debtor names, jurisdictions of incorporation, etc., for the various Master Netting Agreements that we have received over the past few days.

I note that some, but not all, jurisdictions require inclusion of the debtor's "organizational identification number" on the UCC filing. We should be able to obtain this number, where necessary, in most cases through an on-line search. If not, we

can either ask you to track it down (or give us a contact person in this regard) or, for a cost of \$12 per debtor, obtain the information from a search firm.

In any event, we will be back to you in a day or two with an update and, perhaps, requests for additional information. Once we have all requisite information, the filings can be made in another day or two. In the meantime, please do not hesitate to contact me if you have any questions.

From: Ernie.Kohnke@dynegy.com@ENRON Sent: Friday, November 09, 2001 3:07 PM To: Murphy, Harlan Cc: John.C.Herbert@dynegy.com Subject: Revised Agreements Importance: High

Har,

As requested, I have attached the agreements in redline and in final. I am turning my attention to the Guaranty Agreements.

Not to beat a dead horse, and as John also mentioned, we will not accept changes to this Master Agreement that alter the terms and conditions of the Underlying Master Agreements. At a later date, we will be happy to negotiate in good faith concerning whether it would be mutually agreeable to amend those Underlying Master Agreements. This Master Setoff Agreement is simply not the vehicle in which to accomplish that goal.

Regarding any concerns that this Master Agreement may not be enforceable in Europe (or because it covers various Underlying Master Agreements for deals in Europe), please note that Section 13 provides severability language that should operate to carve out the European agreements that might otherwise create enforceability problems. Therefore, our approach has been to include them since your colleagues have acknowledged that they do not know whether there would be enforceability problems in Europe.

I look forward to discussing this final document with you at your earliest convenience. I will be seeking signatures from Pryor at 3:30.

Thanks.

Ernie

Pattern: 17392 - Shown Railroaded Color: 30 Price: \$69.80 (at Expo) Yardage: 8-1/2 yards

The shipping address would be: 8027 Oakwood Trace Houston, Texas 77002 (713) 896-1673 - home #

Will there be a problem ordering this much fabric? Also, will you know the amount of shipping, etc. charges so that we can pay for it up front? I'll have to have my accountant (Anne) write a check or whatever method is needed.

Again, thanks so much for your help. We really appreciate it!

It's been slow - but I think its going to pick up. Send me a list of what you want to purchase and from where - as well as the address where you want it shipped. I will then firnd out pricing for you. It may take a little longer with the Robert Allen stuff since I have to open an account there. I do not anticipate any problems getting the account open. Maybe we can have lunch early next week. Let me know what day is good for you,

Hi Marie -- I had come around to touch base with you on this but had missed you. When this revised template is available, will you be able to help by installing the references to the various master contracts between Enron afiliarttes and AEP which would be referenced? Ed Sacks is our credit contact. I will touch base with you on this -- I am hoping to get copies of those underlying masters also (I already have the wholesale power masters, and can provide you a copy of each, if you need them). Thanks. --David

Alternatively could we continue the process of marking up the agreement they emailed.

Please review the following proposed outline of the credit lines for the proposed ISDA.

Collateral Threshold (tied to S&P and Moody ratings, lower of):

ConEd Enron A+/A1 and above \$75,000,000 \$60,000,000 A, A-, A2, or A3 \$60,000,000 \$55,000,000 BBB+, BBB, Baa1 or Baa2 \$25,000,000 \$50,000,000 BBB- or Baa3 \$5,000,000 \$15,000,000 Below BBB- or Baa3 \$0 \$0

I am trying to set parameters which give ConEd the credit that it deserves as an A+ regulated utility and Enron the credit it warrants as a BBB+ energy marketer. Given the different business profiles of our companies, I don't believe that the application of parity should be practiced with regards to setting credit lines. I think you would agree to this approach when looking at other market players, such as banks, municipalities, etc. I hope we can come to agreement on the proposed credit lines, so that we can proceed with the negotiations of the ISDA. Please call or reply with any comments or questions.

Sara and Marie, update.... Monument I spoke with Monument last week. They are e-mailing to me an electronic version of their Executing Broker Agreement. They use Credit Lyonnais as their back office. We will be clearing via GSI and Morgan Stanley for our London accounts. The original agreement was in the name of Enron Europe Finance & Trading Limited (They took it off Michael Towarek's business card. I have explained to them that the agreement should be in the name of ECT Investments, Inc.). I called this morning to say it still has not been received. They are still working on it. I also need the agreed upon commission rate agreed between Mike and Monument. This agreement will cover equities, futures and options.

Metler I have spoken with Daniela Tresin at Metzler to see if any agreement is required with Metzler. Metzler does not require anything but I called Pariba Milan and Phillip Bano is checking for me to see what is required by Paribas who clears for Metzler. This relationship is for Italien equities and we will clear through GSI and Morgan.

Hey Paul. Left you a vm earlier today. The bottom portion of this email indicates what I was referring to. I already have the Deemed ISDA for the LP that was approved mid October. What I need is your blessing for the LTD. I will be preparing two confirmations for each deal...for a total of four deals. We bought at a strike of 650 October and now we have turned around to sell the same deal at 610. They are both November 2001 deals. No premium as they are swaps.

Unfortunately, I will be working from home this afternoon so please either call me at 281-485-6520 or simply respond to this email. FYI, Marie Heard originally forwarded the Deemed ISDA's this past October.

Thanks for your help.

From: Dyk, Russell Sent: Friday, November 09, 2001 10:25 AM To: Ahmed, Ali Cc: Tackett, Scott; Abramo, Caroline; Zivic, Robyn Subject: AIG Weather Trades

AIG, a hedge fund that we deal with, has done 2 weather trades: an original trade on 10/29/01 (W1597) and an offsetting one yesterday.

Both trades need to be rebooked to reflect the fact that AIG allocates all its trades between 2 entities: AIG Commodity Arbitrage Fund Ltd and AIG Commodity Arbitrage Fund LP. The split between the 2 counterparties is: 77% to Ltd and 23% to LP.

At the moment, the original trade as well as (I'm assuming) the offsetting one are booked only to LP. Please rebook the trades, changing both the tick size and the cap amount, to reflect the above allocations. By my calculation, they should be as follows:

Entity Tick Size Cap AIG Commodity Arb. Fund. Ltd \$1540 \$308,000 AIG Commodity Arb. Fund LP \$460 \$92,000

Once the deals are rebooked, please also reconfirm them this way. The confirmations will need to include a complete deemed ISDA (you can contact Diane Anderson if you need a copy of the specific deemed ISDA we use for DKR).

Thanks a lot for this. Rgds, Russ

Bill, Cassandra, and Donna,

Please reply to this mail with your approval of the signing of the below documents which are needed to maintain an account that had previously been in use by ECT/ENA for execution of Bond Trades through prime broker acocunts.

As Enron Credit has now split out into its own entity new documents must be provided to the executing brokers.

Since we were trading in the old name prior with the counterparties this has only recently come up. It is now disrupting our trading ability as vital couterparties have been restricted from further transactions with us.

Can we have a blanket approval to set up all bond counterparties registered with ECT/ENA to be set up for ECI as well.

Thanks,

Mr. Doukas:

On September 27, we opened a prime brokerage account in the name Enron Credit Inc. Bear Stearns is acting as Prime Broker on this account, and First Union Securities, Inc. is executing your securities. The SEC requires the Clearing Broker (us) to have the attached agreement on file for our prime brokerage clients.

If you would be so kind as to have this agreement signed, I would greatly appreciate it. If you have any questions, you can call me at 704-593-7024. Once it is completed, it can be faxed back to my attention at 704-593-7032.

Hi, Athena!

I apologize for getting back to you so late, but I just saw your e-mail that I printed out this morning. As you can guess, it's pretty hectic here. Here is the info I have on Coral and Coastal:

Coral:

Coral Power LLC - I don't have an address, but it is probably the Houston address
Coral Energy Holding LP - 909 Fannin, Suite 7000, Houston, Texas 77010
Coral Energy Resources LP - 909 Fannin, Suite 7000, Houston, Texas 77010
Coral Energy Canada, Inc. - 1800, 530-Eighth Avenue S.W., Calgary, Alberta T2P 3S8

Coastal (part of the El Paso family):

El Paso Corporation
El Paso Merchant Energy Canada Inc. - 1001 Louisiana Street, Houston, Texas 77002
El Paso Merchant Energy, L.P. - 1001 Louisiana Street, Houston, Texas 77002
Coastal Chemical Company, Inc.
Coastal Coal Company, LLC
Coastal Gas Marketing, Inc.
Coastal Refining & Marketing, Inc.
Coastal States Trading, Inc.

This is the only address I have for El Paso/Coastal

Let me know if you need anything else.

Paul:

Pursuant to my voice mail, Harlan Murphy is finalizing a Master Netting Agreement with Dynegy that is to be signed by ECTRIC and ECT Resources Limited. It appears that John Sherriff is an officer of both entities. Will you assist us in getting this document signed by initialling, if appropriate, and obtaining signatures and faxing a signed copy back to us at (713) 646-3490?

If you have any questions, please call either Harlan Murphy at (713) 345-2679 or Mary Cook at (713) 345-7732.

Thanks for your help!

I don't think this has been assigned. Looks like Southern wants to use their own form (ugh). Any thoughts on priority or who should get this one. Sarah or Leslie? Thanks Elizabeth Sager 713-853-6349

As we discussed last week, attached is netting agreement for Electric Power. In my opinion the agreement is standard in nature and as you should agree, in my opinion of course. Please review and comment if you would like to modify.

As you know, I will be question frequently regarding the status of this agreement, therefore anything I can do to help complete this agreement in a timely manner will be appreciated.

Jay:

Here is the e-mail I received from SoCal. I haven't looked at their form, as I don't think we want to play the forms game with them. If you want me to, I'll touch base with her to see how she is coming with commenting on our form.

Let me know.

Marie,

This is a pre-existing CP of ECT that did a trade with ECI a while back. It is my understanding that these can be set up automatically upon request.

Can we complete and revise as needed the attached prime broker agreements?

Please let me know if this is a problem.

Thanks,

Tom

Hi, Steve:

What is your exact location so that hopefully, the document will reach you and not float around Enron House?

Thanks!

Thanks Marie.

If you send the original to me (in the London tax department), I will handle getting legal to initial and Michael to sign.

Kind regards, Steve

Steve:

I have sent the amendment to the Agency Agreement to Gary Hickerson for signature on behalf of ECT Investments, Inc. When executed, I will fax you a copy. How do you want to handle obtaining Michael Brown's signature? Do you want me to send the original to you and you will coordinate getting his signature, or do you want me to send it to Michael directly? I know Michael, so I don't have a problem with sending it directly to him, or I can certainly send it to someone in Legal in London to coordinate getting his signature. Please let me know how you want to handle this.

In addition, I made a few minor changes to the amendment. ECT Investments' name is ECT Investments, Inc. with a comma between "Investments" and "Inc.". Also, Gary Hickerson is President of ECT Investments rather than Managing Director, and I also added his and Michael's middle initials.

Please let me know if you have any questions or need anything else.

Marie
