We need to sell all the EES all the time. The imbalance is always zero...it doesn't matter what the beep prints(unless its negative-then you can bet we will get charged!!!).

Any ideas, or advice for them? Let me know.

Bill

Subject: CAISO Notice - Distribution of Funds for January Preliminary Invoice

Bill,

We are still in a bad position with the ISO. I have noticed that you have not been able to sell all of our length in the real time market. Given the below statement by the ISO we would ask your traders to get as aggressive as possible on the sales (ie just sell it) . Receiving cents on the dollar from the ISO is not a sound business proposition for us. Do you have any ideas, we welcome your advice

Thanks

ISO Market Participants: Cash clearing related to the preliminary invoice for January 2001 was scheduled for April 3, 2001. Due to a shortfall in receipts from market debtors, the ISO was required to perform calculations in accordance with ISO Tariff Section 11 and Settlements and Billing Protocol ("SABP") Section 6 to determine the appropriate pro-rata distributions to scheduling coordinators. These calculations have been completed, and a distribution of available funds was made today. A total distribution of \$5,980,329 was made against accounts payable of \$835,450,697, resulting in a pay-out percentage of 0.7%. Total market related collections were \$12,952,985, which were reduced to the \$5,940,329 to cover GMC short-payments and other adjustments. The ISO will provide a comprehensive reporting of the January preliminary settlement later this week, and will thereafter distribute a current certification of amounts owed. Phil Leiber Dir. I am pleased to announce that iBuyit Payables has been activated for all organizations supported by Houston Accounts Payable. iBuyit Payables is an innovative tool that will enable us to code and approve invoices for goods and services online.

Who is impacted? Beginning today, all coders and approvers of invoices that were previously submitted to Houston Accounts Payable for processing and payment, will code and approve invoices through iBuyit Payables. Invoices entered directly into SAP, will not be impacted by this process.

Note: Beginning May 8th, any invoices with coding sheets received by Accounts Payable will be entered into iBuyit Payables and electronically routed back to the coder. The invoice will then need to be coded and approved (again) in iBuyit Payables to generate a payment.

How do I receive training? Online system demonstrations and quick reference cards are available on the Enron intranet in the Integrated Solutions Center Document Library at <

http://sap.enron.com/sap_doclib/user/file_list.asp?cabinet_id=265>. Note: You must use the Enron standard Microsoft Internet Explorer to view these materials.

Who do I call for help? * For help using the iBuyit Payables system, contact the ISC Call Center at (713) 345-4727. * For invoice payment status, contact the Accounts Payable Call Center at (713) 853-7127 or toll free at (866) AP ENRON, or send an e-mail to iBuyit.payables@enron.com <<mailto:iBuyit.payables@enron.com>>.

Questions? For general information about iBuyit, send an e-mail to <<mailto:ibuyit@enron.com>>.
