To whom it may concern:

Tags numbered 33079 (5mw) and 33086 (20mw) were cut for a number of hours.

HE 08 and HE 09: Both tags were cut and nobody informed any of the counter parties that the tags were cut until about 25minutes into the last hour of the cuts. I initially heard of the cuts from Larry @ MEANMN and immediately called each

person in the path to inform them of the cut situation. No action was taken for these two hours.

HE 13: Both tags were cut and we purchased 25mw from APS to cover the cut and had it delivered to four corners 345 @ a price of \$25.00.

HE 17: Both tags were cut and we purchased 25mw from LADWP to cover the cut and had it delivered to Palo Verde @ a price of \$44.00. Will @ PNM agreed to having the power delivered @ a different location.

HE 18 and HE 19: Both tags were cut and we purchased 25mw from SRP to cover the cut and had it delivered to four corners 345 @ a price of \$45.00.

HE 20: Tag 33086 was cut to 0 (total of 20mw) steve merriss bought power from El Paso for \$45.00.

Steve Merriss input the cut note into the lotus database.

Bert Meyers

Hi Bert!

Per AT&T, you have been authorized to take over this cell phone number; however, there is a deposit or 6 month pay history that needs to be provided. (Current balance is \$0.00.) Please contact AT&T directly to complete the process (800.298.2158 or 800.888.7600). You will need to provide them with billing information (address, phone, SSN, DOB, etc.). If you have any problems, please let me know!

Thanks, Grace x8321

Grace:

I was told by Kathryn @ AT&T to inform you of my wishes to keep the current number and contract for my cell phone...of course once I give them a call.

If you have any questions please feel free to call.

Thanks,

Bert

To Whom it may concern:

Tag 23841 was cut by 50 MW for HE 01 and HE 02. Wally @ NEVP said he heard= of the cut @ 23:30 on 06/27/01 but he neglected to call us and tell us abo= ut the cut. The reason for the cut was PAC non-firm tranny being cut that = PSCO bought. However they sold us a firm product. PNM didn't know about t= he cut either until their reliability person told them they were pushing po= wer on the grid (Approx. time of notification 01:20). We booked out with P= SCO and PNM for HE 01 and HE 02 on the 4C345 part of the transaction (deals= 666385 and 666387). For HE 03 25 MW was cut and we booked out with PSCO a= nd PNM on the 4C345 piece of the transaction (deals 666385 and 666387). PS= CO resupplied the power for HE 03 from SRP @ Mead 230. The same thing hap= pened for HE 06 as HE 03. SRP resupplied the power for HE 06. I bought b= ack for HE 06 from PSCO @ 4C345 and resold the power to SRP. The deals are= in the RT Inc. sheet for the 28th of June. After the fact, I spoke with R= yan @ PSCO and he agreed to be billed liquidated damages for HE 01 and HE 0= 2 on the MEAD 230 part of the transaction (06:00 on Kate Symes Phone).

Please Call with question,

Bert Meyers

From: Meyers, Bert Sent: Monday, May 07, 2001 5:59 AM To: Nelson, Kourtney Subject: Info on some cuts for 05/06/01 and 05/07/01

Courtney:

Thought you might like to know that there were numerous cuts last night and into the morning hours.

They are as follows:

05/06/01 ISO cut import @ Four corners 9MW for HE 19 and Export @ Summit 9MW for HE 19. The same schedule was cut for by 21MW for HE 21 thru 22.

For HE 23 the ISO cut a 21MW import @ PV and the corresponding export @ Summit.

For all these hours, the ISO kept our buy resale whole with NCPA SP15 to NP15.

PAC Cut tag 14987 PSCO_AEPMWE_EPMIWE_EPMWE_AVWP00 25 MW for HE 19-24. PSCO booked out with Avista Water Power (WWP) 05/06/01.

05/07/01 PAC was cutting tag 14988 PSCO_EPMI_MECOLB_AVSTWE_CHPD 25MW for HE 01. PSCO booked out with Avista Energy Trading (CHPD) 05/07/01.

CISO cut schdule EPMI_CISO_5000 and EPMI_CISO_5001 by 1MW each at PV. We resold the power to SRP for \$5.00. Not a great price but everyone in the SW was getting cut at the same time. The new deals in Enpower are as follows: 602984 and 602985. If you have any questions please see cut note or lotus notes.

Also this morning the ISO was cutting and SC trade with NES1 in SP15 and dec'd load in PGE 1, 2, and 3. Must be Path 15 Congestion.

Regards,

Bert Meyers
