Thanks, Grace

-----Original Message-----

Dear Grace,

I hope your summer is giving you some opportunities to enjoy nice weather.

We've had an interesting inquiry from a national business publication; they're looking for stories about people who've been through our negotiation courses who feel the course played a significant role in their professional -- or personal lives.

Can you think of anyone from Enron/Portland who might be interested in being interviewed?

Please give my regards to the 'gang'. I look forward to working with you again.

Friday afternoon get together

Sender	jeff.richter@enron.com
Recipients	['serena.bishop@enron.com', 'phillip.platter@enron.com', 'cara.semperger@enron.com']
File	williams-w3/bill_williams_iii/175.

Hello Everyone,

I wanted to invite everyone over to my house this friday afternoon for a little get together. We can grill out, have a few refreshments and enjoy the Portland weather. Brats and beer will be provided, feel free to bring any other meats/fish to grill and something other than beer to drink.

Feel free to invite anyone not on this list, I think we will start in the early afternoon (around 4:00 p.m. depending on when people can get out of work) and plan on eating around 5:30 p.m. Let me know if you have any question.

See you on friday, Jeff

Address:

1935 S.E. 46th Ave

(Go east on Hawthorne to 46th Ave, hang a right (past the 7-11 store) and drive to the next full intersection. I live on the right hand corner of 46th and Harrison)

Recipients	['brian.cohen@enron.com', 'jody.crook@enron.com', 'israel.estrada@enron.com']
File	williams-w3/forney/1.

Hello --

It's that time of year again. The mid-year PRC will be starting soon. I have yet to get the official documentation from the A/A program so if you can do the following for me I'd appreciate it.

Please:

1.) Let me know who your immediate supervisor is. Name, phone, etc. 2.) Let me know whether you are still being represented by me...the only way you wouldn't be is if you were promoted to associate at year-end 3.) Let me know what you've been up to by giving me a few paragraphs on: What you're currently doing -- responsibilities, highlights, specific deals or actions What you've been doing since year-end (I would assume it's the same but some people may have rotated, etc.) Then please list at least two people I can call to follow-up...please provide their phone numbers.

Thanks and I will be setting up appointments during late May.

Jon

Jeff, I will be glad to discuss this with you in the future. However, I am on my way out the door to Pullman, WA for a recruiting trip. I will be back late on Friday afternoon or we can talk on Monday. Give me a call on my cell and let me know what you would like to do.

Bill

-----Original Message-----

From: Richter, Jeff Sent: Wednesday, September 26, 2001 8:02 AM To: Williams III, Bill Subject: Real Time Prcing

Bill,

I would like to sit down and discuss the \$5.00/MW charge that is being associated to each EES transaction. Since Tim Coffing is now up here and managing our intra-month portfolio, I feel the ability to manage a retail position is better than what it was and the volatility in the wholesale market has come off quite a bit. I would like to discuss this further with you sometime today.

Let me know when you are free.

Thanks, Jeff

New Generation Report Questionnaire

Sender	james.bruce@enron.com
Recipients	['robert.badeer@enron.com', 'k..allen@enron.com', 'tom.alonso@enron.com']
File	williams-w3/bill_williams_iii/292.

Hello,

I am taking over responsibility for the Monthly New Generation report previously compiled by Jeffrey Oh. I would appreciate your feedback so that I can better tailor the report to your specific needs. All comments will be given serious consideration, but may not necessarily be implemented in a future version of the report.

- 1) For what purposes do you use this report? (i.e., tracking total new capacity by region, following specific plants/companies, monitoring changes in implied heat rates, etc.)
- 2) What would you like to see more or less of in the report? (i.e., more news stories, less cartography, more graphs, etc.)
- 3) Would you use an online version of the newsletter that could be customized to your specific needs?
- 4) Would it be valuable if the report were updated more frequently? (i.e., weekly or bi-monthly)
- 5) Do you know of anyone else who may be interested in receiving the report?

Thank you for your feedback. Any additional comments/questions are welcome .

James Bruce Enron North America (503) 464-8122 West Power Desk (503) 860-8612 (c) 121 SW Salmon, 3WTC0306 (503) 464-3740 (fax) Portland, OR 97204 James.Bruce@Enron.com

File	williams-w3/bill_williams_iii/716.

-----Original Message-----

From: Deborah Reyes [mailto:dreyes@pdxpfe.com] Sent: Monday, July 09, 2001 5:09 PM Subject: Party at PGE Park - Assistance Needed

We have a fantastic opportunity for employees of our sponsors and suite holder companies. Due to last minute scheduling conflicts, a large block of our volunteers for the Party at PGE Park this coming Friday had to cancel. This has obviously created some last minute challenges for PGE Park, but it is a great opportunity for your employees to volunteer a few hours of their time on behalf of some great causes plus see the Four Tops and The Spinners in concert for FREE. Here's how:

Party at PGE Park is a fundraiser for the Portland Oregon Sports Authority, SOLV, and Special Olympics Oregon. We are about 40 volunteers short to assist with serving the VIP dinner.

Volunteers would work from 4:00 p.m. to 9:00 p.m. on assisting with the pre-concert food service. In exchange, each volunteer will get two free tickets to that evenings' concert plus a voucher for a free hot dog, chips, and soda.

This opportunity is open to your employees and spouses, significant others, or other adult family members. We're sorry, but children cannot volunteer for this particular opportunity.

Interested parties can call or e-mail:

KATY BYRNE Director of Event Operations PGE Park 503-553-5501 kbyrne@pdxpfe.com

Please share this information with your employees as you deem appropriate. Obviously, time is of the essence in coordinating volunteers. If you have any questions, please do not hesitate to call me. Thank you in advance for your support.

Deborah Reyes (Colby) Director of Client Services Portland Family Entertainment 920 SW 6th Avenue Mezzanine Level Portland, OR 97204

First Game this Sunday Delta #8 at 12:15

Sender	jon.gail@hcs.state.or.us
Recipients	['mossyuk@hotmail.com']
File	williams-w3/bill_williams_iii/46.

Just a quick reminder that the Green Room has its first outdoor soccer game this Sunday at 12:15 at Delta #8. Please let me know if you intend to be there and also if you have not yet paid whether you are going to be on the team. No pay no play. I need to get a final count in order to know whether we need a few more guys or not. Let me know. Thanks guys!

Jon

Hi Green Roomers, The Fall Outdoor Soccer Season is just around the corner and the schedules have been posted to the GPSD website at <http://www.gpsdsoccer.com/> You will be surprised to learn, like I was, that we were not promoted to the

1st division. It seems that the league has decided to keep us in 2nd even though I registered for and said we would accept the promotion to 1st division in order to be eligible for the championship. Our first game is on Sunday Sept. 9th at Delta Park #8 (NE of Strasser) at 12:15. All of the rest of the games in the 10 game season will also be at 12:15 and will occur every Sunday between Sept 9th and November 18th with the exception of Sunday October 21st when we have a bye. We then will

have

a Championship game in early December since we will win the league again. Right? Don't forget to update your player card if you had a recent Birthday or

are

new to the team. You update or get a player card at the OASA league office

off of Highway 26 at the Sylvan exit. They do have odd hours so call them before you head up there. Anyway that is enough from me. See you soon out on the soccer pitch. Jon Gail, Manager 503-691-8067 -----Original Message----- From: Rick [mailto:lit@beerdrinker.org] Sent: Friday, August 31, 2001 4:09 PM To: Jon.Gail@hcs.state.or.us Subject: Re: soccer hey, just getting that check into the mail... rick Jon.Gail@hcs.state.or.us writes: > Hi Rick, > > Adam talked to me about you and yes we really do need more players of

Re: Bad news about Winter League

Sender	aevanloon@hotmail.com
Recipients	[]
File	williams-w3/inbox/108.

I echo Jon Gail's disappointment about the winter season. Jon Bloomfield and I are looking into scheduling a time to have a practice of some kind (most likely just pick-up soccer) that perhaps can meet regularly. We will keep you posted.

As for the spring season, the registration deadline is February 18, so although the season doesn't start until April, the sooner you can send me or Jon your moneys, the easier it is on us.

Hope to be in touch with you all soon. If you play on TBA, I'll see you tonight.

Adam

10 MW schedule Heavy Load for the June 2nd at Mead

Sender	stacy.runswick@enron.com
Recipients	['shift.portland@enron.com', 'cara.semperger@enron.com']
File	williams-w3/preschedule/13.

Please refer to Enron Tag #23876. The path is

BHPLGS gen @ BHPLSYSTEM- BHPL (T) BHPL/STGL - BHPLGS - MEAN - LAPT(T)STEGW/DAVEJOHNSTON - MEAN - MIRANT- PPW(T)DAVEJOHNSTON/4C3- MIRANT- EPMI- APS(T)4C3/WW5 - EPMI- CRSPM1 - WALC(T)WW5/WW2- WALC(T)WW2/COOLADGE- CRSPM1 load @ COOLADGE.

We had problems getting the tag approved. This is a good path and should flow. Both the generating and load control areas have a copy of this tag and have agreed to implement this schedule real-time even if the tag is denied. I spoke with Brandi at WACM (970) 461-7277 and Theresa at WALC (602) 352-2552.

If there are any issues regarding how the load PSE should be represented on the tag, John Dake at WALC said the CRSPM1 was the appropriate PSE for these tags and there is no reason the schedule should be denied.

You can reach me on my cell at 807-7861 if you have any additional questions.

Spring Season

Sender	aevanloon@hotmail.com
Recipients	[]
File	williams-w3/inbox/53.

Dear Green Roomers,

Registration for the spring season, which starts in April, is just around the corner, and we need to submit money to GPSD. The cost of the ten-game is \$50 per player. Some of you have already paid \$25 or so to Jon for the winter season, which unfortunately did not come to pass. If I'm not mistaken, the following people have already paid: Jon Gail, Jon Bloomfield, Bill Williams, Jay Flint, Jake Fox, Rick Rezinas, Scott Gates, Scott H (the keeper) , Tristan Brunin, Frank Ma, and Declan. These people need to pay and additional \$25. \$50 for everyone else.

Please give me an email in the next week or two if you plan on playing, and send checks or money to the address below.

Additionally, you are encouraged to recruit solid skill players for the team. Especially at the beginning of the season, more players is better, and fresh blood is always a way to build the team.

See you all soon, Adam Van Loon

From: Hall, Steve C. Sent: Thursday, July 05, 2001 5:12 PM To: Yoder, Christian Subject: MPC Letter ---draft 2

July 5, 2001

The Montana Power Company 40 East Broadway Street Butte, Montana 59701-9394

Re: Arrangements to Accommodate FERC's June 19, 2001 Order

Dear _____:

The Montana Power Company ("MPC") and Enron Power Marketing, Inc. ("EPMI") are parties to a Confirmation Letter dated December 20, 1999 (the term of which has been extended by letter dated _____) under which EPMI has been purchasing energy for resale to MPC or selling energy received from MPC into the wholesale market. As you are no doubt aware, the FERC issued an Order on June 19, 2001 that imposes new restrictions upon wholesale energy sales throughout the WSCC.

One restriction that affects our agreement is that marketers, such as EPMI, may not sell energy at prices above the price cap set by the California ISO ("California Cap"). Generators are permitted to sell above the price cap if they can justify their prices. As a result, at times (such as during this week's heat wave which caused blackouts in Las Vegas) EPMI may not be able to purchase energy anywhere in the West at a price below the California Cap. Because EPMI cannot pass through costs of purchasing energy above the California Cap to MPC, we cannot purchase such energy on MPC's behalf for resale to MPC.

However, in order to continue to serve MPC's needs at times of peak demand, scarce supply, and high prices, EPMI proposes the following solution:

1. If EPMI is unable to acquire energy at a price at or below the California Cap, EPMI will strive to meet MPC's energy needs by arranging for a generator to deliver energy to MPC and for MPC to pay the generator directly. 2. EPMI will notify the seller that it is purchasing the energy on behalf of a customer, who will be paying the generator directly for that energy. 3. EPMI will notify MPC of the identity of the seller, along with the amount to be paid the seller, and provide other information and assistance to enable MPC to pay the seller directly. 4. All other aspects of the existing agreement will remain unchanged.

We believe this proposal allows EPMI to continue to meet MPC's needs, while complying with Federal law. If you have another proposal, or would like to discuss this matter further, please feel free to call either Christian Yoder at (503) 464-7845 or Steve Hall at (503) 464-7795.

Otherwise, kindly acknowledge your understanding and agreement to this amendment by signing in the place provided below.

Green Room,

Granted, I missed the last game and though I may not deserve to present an opinion given my lengthy stay on the reserve list, I also favor the move to D1. I think better competition will be more fun, provided that we field a full team (speaking mostly at myself here) on a consistent basis. I have started playing again and am hoping to be back for the Fall season, I also know another player-Nate Stanton (he has played with a few of us in indoor)-who is interested in playing and is a bit quicker and better than myself. So for what it's worth. D1 all the way.

Thanks.

B

Hello all,

Considering the circumstances if we don't move up, I think we should just move up to the first division. As a lover of european soccer, I enjoy the promotion/relegation system. It is a great way for leagues to equalize competition. So we should just take it in the gut and toughin' up and move to the 1st. It'll be fun and competitive. Maybe it'll give us more motivation to stay focused as a team. I'm all for it. Afterall, we deserve it. We earned this move. I don't want to switch and loose the Green Room name just to stay in 2nd Div.

But this does mean that it wouldn't hurt to have a few more good players join us. So if you know of anyone really good, have him join.

Jon--The check's in the mail.

To the first!

Jay

Hi Guys,

Just a quick reminder that I do need to get a \$50 from all of you who want to play on the Green Room's Fall '01 Soccer Team. The money (\$670 2nd Division or \$760 for 1st Division) is due to the league by July 23rd so I need you to send me a check ASAP. My address is 8573 SW Dakota Drive Tualatin, OR 97062. The 10 games will be on Sundays from 12 -2 mostly some 2-4 games starting on September 9th.

The other issue I need you to ponder is 1st Division vs 2nd Division. I know at our last game we decided to stay in 2nd but what I did not know at the time is it will cause The Green Room to be ineligible for a league championship (for 2 years) if we are 1st or 2nd in our league since we did not promote our team to 1st division. I guess one way around this is to change our name and Manager (nay volunteers?) and then I doubt the league would know who we are even though we are basically the old Green Room team or just to try out 1st division and see how it goes and try and get a few more power players to make us even better. Please respond to me by telling me if you think we should stay in 2nd or move up to 1st. Also send me money! Thanks.

Jon Gail 8573 SW Dakota Drive Tualatin OR 97062

Hi Green Roomers!

Great season. I thought you might like to know that we did in fact finish at the top of our league. This season was the first time in 7 years we won our league. Some have inquired about a playoff game between the 1st and 2nd placed teams. So far I have not found that to be true, but will let you know ASAP if I hear differently. Here is a link to the GPSD league and standings.

<http://www.gpsdsoccer.com/>

As we discussed at our last game and even though I wanted to leave the managing to some one else. Given our success and the fun we are having I am willing to manage the Greenroom one more season this Fall Season in second division.

To enter a team we will need to come up with \$670 by July 23rd. So if you want to keep playing on the team please send me (Jon Gail) a check in the amount of \$50.00 at the address below. If I collect extra money it will be used to buy a few new uniforms.

Again great season and thanks to all for making it a positive experience.

Jon Gail 8573 SW Dakota Drive Tualatin OR 97062

What up dawg! How are you and Meg doing? I still have a job. It has been an extremely rocky time. However, I feel optimistic that our trading business will continue in some fashion. I believe that we will be bought out by an investment bank and that we will be able to start trading again. The chances are good that I will have to thin out my group a bit, I am hoping that attrition will take care of some of the members of the group. I think we are going to let traders out of their contract if they want to leave. Hopefully that will cut down on any direct lay-offs I will have to do. It would suck having to lay-off good people. Its worrisome but like I said, I am optimistic. Soccer was going well, but I sprained my knee pretty badly playing indoor last night, so another two-three weeks before I am out there playing again...bollocks! Its ridiculous. How are things with you? I have two tickets to Mark Lanegan on December 19th at Berbatis Pan. Are you going to be in town at that point? Its gonna be sweet. Still enjoying the Audi. My address is 1005 SW Park Ave. #706, Portland OR, 97205. Give me a ring and let me know what the word is. 503-887-3449.

Later, Bill

Hi all,

I just moved back to Portland and may have missed some of the messages, but i know that OES was a proposed practice area. You can't get much better than those fields. Also, Bridlemile School/Hamilton Park is not far from OES and is in good shape.

Cheers, Mike

RE: California ISO Market Re-Design 2002 (MD02)

Sender	bill.williams@enron.com
Recipients	['alan.comnes@enron.com']
File	williams-w3/sent_items/31.

Alan, I think you have identified the most pressing issues. Certainly the ability to go long or short into R/T will be important and hopefully the CISO will follow through on its efforts to "strive for simplicity and transparency." Any idea what the penalties for being long or short in R/T might be? In the CISO's proposal the first two "goals" for the real time market appear to be at odds with each other. Also, I think we should push to rid ourselves of 10-minute dispatch at tie points. I understand the CAISO keeping the ADS in-state but it has not worked at tie-points. Feel free to let me know if you have any questions.

Thanks for the update.

Bill

-----Original Message-----

From: Comnes, Alan Sent: Thursday, January 03, 2002 2:52 PM To: Belden, Tim; Badeer, Robert; Mallory, Chris; Lackey, Chris; Richter, Jeff; Hall, Steve C. (Legal); Blair, Kit; Gilbert, Scotty; Williams III, Bill; Calger, Christopher F.; Heizenrader, Tim Cc: Nicolay, Christi L.; Steffes, James D.; Dasovich, Jeff; Novosel, Sarah Subject: California ISO Market Re-Design 2002 (MD02)

The California ISO has begun a comprehensive redesign of its markets. FERC ordered CAISO to submit a proposal to FERC by 5/1/02. CAISO is trying to implement changes by this summer and certainly no later than when price controls terminate on 9/30/02. CAISO's proposed changes are intended to solve long-standing problems such as the lack of price resolution (and resulting gaming opportunities) and problems purportedly related to the "crisis" of 2000/2001 (e.g., lack of capacity commitments made on the part of load). Some of the changes being considered include:

Increased price resolution via either: A move to full-nodal model with security constrained dispatch (i.e. PJM), An increase in the number of zones, or A combination of the two: nodal for relieving congestion, zonal for scheduling load and pricing traded energy. A requirement that load make forward commitments for capacity residual forward unit commitment (for times when voluntarily committed capacity is insufficient) Creation of an hourly day-ahead energy market. Combining A/S procurement with CM "Damage control" price caps

One of our key needs as an energy trading co. is a need for the market to allow participants to enter R/T either short or long. This is allowed in PJM. Also, we will need to be on the defensive against the ability of CAISO to impose price controls.

Please review the attached and let me know (1) other design elements you would like to see (or not see) at the CAISO, and (2) your interest in participating in this process going forward. Note that a more detailed proposal will be out next week and there will be stakeholder meetings during the week of 14 January. We may not be able to get someone there in person but will definitely, at a minimum, listen in.

<< File: MD02 Design Elements.pdf >>

Stakeholder Meeting Dates and Times:

ISO Market Participants:

As indicated in the December 20, 2001 CAISO Notice, the ISO will be hosting several Focus Group Meetings to discuss, "Market Design 2002 Design Draft". These meetings will take place at the Hilton Garden Inn, 121 Iron Point Road, Folsom, California 95630 (916) 353-1717.

The meeting dates, times, and targeted groups for these meetings are:

- * January 14, 2002, 9:00 a.m. - 2:00 p.m.: Load-Serving Entities
- * January 15, 2002, 9:00 .am. - 2:00 p.m.: Generators and Marketers
- * January 16, 2002, 9:00 a.m. - 2:00 p.m.: Municipal Utilities
- * January 17, 2002, 9:00 a.m. - 2:00 p.m.: Other Control Areas

Roger; the following contacts will be able to assist Air Products during the term of our physical transaction scheduled to begin on 8/23/01.

Real-Time; 1-800-684-1336 Managed by Mr. Bill Williams (503) 464-3730

Pre-Schedule; 1-877-464-7779 Managed by Cara Semperger (503) 464-3814.

Donald Robinson (503) 464-3902 and Diana Scholtes (503) 464-3807 will be involved with the "pre-scheduling" of Air Products energy.

My office phone number is (503) 464-2270 with a cellular phone number of (503) 701-0295.

A general rule of thumb would be, we pre-schedule the next day's energy by 6:30 AM PPT the day prior to delivery, except for on Thursday mornings we pre-schedule Friday and Saturday, and on Friday we pre-schedule Sunday and Monday. Holidays are pre-scheduled by the specific Holiday but if you'll check with us in advance, we'll be able to provide with the pre-schedule deadline. Air Products is free to make changes at anytime, and internally we will get the request to the appropriate person.

Thanks again for the opportunity to become Air Products Energy Provider of choice, let me know if you have any questions and or concerns.

John

Ralph; I wanted to exchange crucial phone numbers and contacts with you. If you'll reciprocate with key contacts for Holnam I would appreciate it.

If for some reason I am unavailable and you wish to either purchase or sell MW volumes, please feel free to contact Diana Scholtes on (503) 464-3807.

Our Pre-Schedule (one day or longer scheduling requirements) phone number is 1-877-464-7779. The two ladies most involved with scheduling loads in the Montana region are Stacy Runswick (503) 464-3747 and Cara Semperger (503) 464-3814.

Our 24-Hour Real-Time (less than one day and up to the next hour) phone number is 1-800-684-1336

You have my office phone number (503) 464-2270 and my cellular phone number is (503) 701-0295.

I do not anticipate you needing anyone's number but my own, nor do I anticipate having to contact anyone but you, but I did want to exchange this information just in case.

Once again we appreciate the opportunity to serve your Montana loads, and look forward to working together in the future.

John

RE: SI Support for Enron

Sender	bill.williams@enron.com
Recipients	['almeida@enron.com', 'kalmeida@caiso.com']
File	williams-w3/sent_items/117.

Keoni, I thought your email regarding the running of CONG with a heuristic rather than optimal solution may address and solve the problem. I have not yet been able to pull up "corrected" prices but hopefully they will now reflect our bids. The problems I referred to in my phone message last week were similar to what my original email detailed. Basically, we were awarded mw's on a congestion management schedule and the published prices did not match our bids. Will the change in running the "solutions" change this? Our volume management group will then be inputting our bid price rather than the published congestion management price--as those prices are not yet published correctly.

I will be in the office this week and can be reached at your convenience.

Thanks, Bill

If Bill finds this language agreeable, you can cut and paste my revision and send it to the customer, with the following caveats that you must communicate to the customer:

1. We can do the load following service under the WSPP. We cannot commit to term transactions without an EEI Master Power Purchase and Sale Contract in place
2. If the customer is interested, we can negotiate a more formalized contract for this service.
3. I reserve the right for Credit or Legal to change our mind about this arrangement and require a more formal contract at any point in the future. If I change my mind, though, I'll give everyone plenty of notice.
4. If the customers' lawyers or contracts personnel have any questions about this arrangement, or doing business with Enron in general, I am available to meet with them by phone or in person.

[Try this on for size.---sch]

Enron is interested in assisting Grays Harbor, Benton and Franklin with load balancing by buying and selling power in the real time market. When requested, Enron will provide competitive bids and offers on an hourly basis. To help us provide you with the most competitive prices we can, we ask that you communicate all trades to us at least 45 minutes before actual physical delivery would occur. We can do transactions on shorter notice, but it is more difficult to ensure a competitive price as the time for physical delivery nears. In addition, as you may be aware, the wholesale power market can only accomodate transactions involving quantities of energy that are in whole MWs; i.e., there is no market for partial megawatts. Therefore, each transaction must be at least 1 MW, and we would prefer, but not require, that you transact with us in volumes of at least 5 MW.

Steve here is my thoughts on the comercial language that should be in the contract

Enron is interested in assisting Grays Harbor, Benton and Franklin in load balancing by buying and selling power in the real time market. Enron will engage its best efforts to provide the strongest bids and offers on an hourly basis. The timing of when Enron is informed of the PUD's positions will have a large affect on the prices received. Enron would appreciate all trades to be communicated at or before 15 minutes past the hour for the following trading hour. In addition, Enron can only trade integer power volumes due to the wholesale power practices. As a result, the minimum power quantity must be at least 1 MW. Enron prefers power volumes to be at least 5 MW.

Bill - this for you..

-----Original Message-----

From: Surface, Jerald Sent: Tuesday, June 19, 2001 4:04 PM To: Williams, Bill Subject: Interview

Bill,

Thanks very much for taking the time to speak with me this afternoon. I am very interested in a real-time trading position in Portland. It sounds like an excellent opportunity and a challenge that I am ready to take on. I have heard many good things about the group in Portland and I trust that real-time trading would be an exceptional learning experience. I certainly look forward to visiting Portland and further discussing this opportunity with you and your team.

Below, please find attached a few professional references of those who can speak about my job duties and performance thus far.

- 1) Neil Hong Sr. Director, Risk Analytics 713-853-9526
- 2) Jubran Whalan Director, Commodity Risk Management 713-853-9632
- 3) Jay Lewis Vice President, Utility Risk Management 713-853-9530

Thanks again, Jerald Surface 713-345-7116

RE: LP deal

Sender	bill.williams@enron.com
Recipients	['virginia.thompson@enron.com']
File	williams-w3/sent_items/272.

There are several annuities related to the profit sharing of this deal. First-- All deals should have been made under the ST-NW desk to route with the PGE = deal-buy tranny-etc. (I recognize this did not happen but this was my inten= t and should or could have). Consequently all revenue from this deal origin= ally went into the ST-NW book. Therefore. An annuity was made from ST-NW to= ST-WHOURLY. Deal #531524--\$23468. Next an annuity was made from ST-Whourly= to LT-NW at \$5472 to compensate LT-NW for the \$48 purchase price (deal #53= 1546). This left a profit of \$17996 to be divided between ST-Whourly and L= Pac-30/70. Consequently, ST-Whourly made an annuity to L-Pac for their part= of the profit share, Deal #531549--\$12597.73. All this left RT with a prof= it of \$5399. If you place all the deals under LT-NW...it will be a large im= pact on ST-NW, and will result in LT-NW getting paid a couple of times. The= se profit share numbers are accurate. After expenses--LT-NW gets \$5472 for = the original deal, then ST-WH gets \$5399 and L-Pac gets \$12597.73. All thes= e annuities cannot just be killed as they liquidated on the 26th--of Februa= ry. It is probably a better idea to put everything back under the ST-NW boo= k...ideas?

Questions?

Just come see me and let me know.

-----Original Message-----

RE: Mead Congestion Issue

Sender	bill.williams@enron.com
Recipients	['almeida@enron.com', 'kalmeida@caiso.com']
File	williams-w3/sent_items/169.

Keoni, I am not concerned with the improperly posted ATC's. I am concerned that our bids to relieve congestion were awarded but that the respective dollar value for those bids was incorrect. We have had problems in the past with misentry of our congestion management bids. However, in this case, the awarded congestion management bids look correct to me,

and it appears that the CAISO published price is not appropriate for the amount of mws flowed. I would like to figure this out as soon as possible so that we can fix any problems that might exist on our end.

Please give me a call when you have a chance.

Thanks, Bill

Sender	kate.symes@enron.com
Recipients	['bill.williams@enron.com']
File	williams-w3/bill_williams_iii/225.

FYI - Lisa Scully appears to be the person who knows how to get Lotus Notes database access.

-----Original Message-----

From: Enron Messaging Security, Sent: Friday, August 17, 2001 7:14 AM To: Cox, Chip Cc: Symes, Kate Subject: RE: E-Request 53597 - Darin Presto

Chip,

I granted Darin Presto, John C. Anderson, Michael Mier access to the databases listed below. Please allow about 1 hour for the changes to replicate throughout the system. Also, Lotus Notes IDs have been created and dropped on their H:\notes4\data directory.

Can you please assist with configuring their Lotus Notes and ensuring that they can access these databases.

Many Thanks! Lisa Scully ----- Forwarded by Enron Messaging Security/Corp/Enron on 08/17/2001 09:11 AM ----- From: Kate Symes/ENRON@enronXgate on 08/16/2001 05:45 PM To: Enron Messaging Security/Corp/Enron@ENRON cc:

Subject: RE: E-Request 53597 - Darin Presto

Lisa -

Thanks for looking into this, and for your quick response. I'm not sure which databases you're looking at (possibly East Real Time?), but I've attached a list of the four databases the new Portland Real Time traders need access to. The traders names are: Darin Presto; John C. Anderson; Michael Mier. Of course, their need for a Lotus Notes account is implicit in this request. Beyond that, they need the following:

Title - WSCC Outages Server - ECTPDX-LN1/ECT Filename - mail\wscnet.nsf

Title - West Realtime Server - ECTPDX-LN1/ECT Filename - mail\WestReal.nsf

Title - West Power Scheduling Archive Server - ECTHOU_LN1/ECT Filename - Power\powrschdiarchive.nsf

Title - West Power Scheduling Discussion Server - ECTHOU_LN1/ECT Filename - Power\powrschdi.nsf

Again, thank you for your help with this, and please let me know if there's anything I can do to help.

Thanks, Kate

-----Original Message-----

From: Enron Messaging Security, Sent: Thursday, August 16, 2001 3:17 PM To: Symes, Kate Subject: E-Request 53597 - Darin Presto

There are two databases which I cannot locate:

West Realtime WSCC Outages

However, I did locate:

Real Time Operations: ECTPDX-LN1/ECT\realtime\myaccoun.nsf (Would this be the correct database?) Realtime: ECTHOU-LN7/ECT\mail\realtime.nsf

For WSCC Outages and West Realtime databases, if you could locate someone who does have access to these databases and ask them to do the following:

Close the database icon Right-click on the database icon Choose File, Database, Properties Then send me the Title, Server, and Filename information. This will be of great help.

Many Thanks and Please Advise.

File	williams-w3/bill_williams_iii/57.

Hi Kate - Lisa is out today. I have added the users to the appropriate groups which should give them access to the required databases. I show that their notes id's have already been created - I will go ahead and drop the id's into the H:\notes4\data directories of the respective users. The passwords have been set to changeyourpassword - you may need to contact a floor tech to install notes on the user's machines and install the id required for accessing the databases.

Salman.

Sender	bill.williams@enron.com
Recipients	['kate.symes@enron.com']
File	williams-w3/sent_items/121.

Is the bet that I will reject the idea?

-----Original Message-----

From: Symes, Kate Sent: Friday, November 02, 2001 4:53 PM To: Williams III, Bill Subject: Suggestion: Paint Ball Real Time Outing

Bill -

It has come to my attention that several members of the Real Time group would prefer an outing that involves running, hiding, and shooting balls of paint at each other instead of engaging in polite conversation while cordially sipping cocktails at McMenamin's Edgefield. They do not want time to get to know each other in a civilized setting outside of work. They want to beat the living crap out of each other. I am merely letting you know so I can win a bet for \$7,000.

File	williams-w3/bill/10.

Hi Bill!

Thank you for returning the paperwork to me. They are installing hardwoods on 4th floor right now. (I was down there this am). The Lobby is complete...just some touch up needed. Elevator is up & running.

At this time, we need you to identify a Lender and get yourself pre-approved and have the Lender pre-approve the project. Because it is a conversion, some Lenders have trouble doing the loan. Jerry Wilson of Pacific Northwest Mortgage, Inc. has pre-approved this project and is doing a number of other loans at the Roosevelt. In case you'd like his number it is: 503-224-4564 or pager 503-224-4308 (Tell him you are calling re: Roosevelt).

Let me know which Lender you are working with and I will give them the necessary info about the building.

Thanks, Kirstin Boettcher for Jeff Burghart P.C. The Hasson Company Realtors 503-735-4884

-----Original Message-----

From: Symes, Kate Sent: Wednesday, October 03, 2001 5:43 PM To: Williams III, Bill Subject: Colstrip Cuts 8/1

FYI -

I left a message with Rich Brueger @ MPC regarding power we resupplied at Montana System on 8/1, HE 13. I'm giving you the same information I left with him in case any questions arise in my absence. Fortunately, there is a detailed cut note in the Lotus database, so you can refer to that if I've missed the mark entirely. Out of Montana's 62 mw of choice customer load that hour, we resupplied 41 mw. Following is the breakdown of sink counterparties:

Luzenac America, Inc. - 5 mw Smurfit-Stone Container Corp. - 25 mw Express Pipeline Partnership - 6 mw Cenex Harvest States Coop. - 5 mw

Deals entered real time to resupply are 714148 (Buy PGE @ Mid-C) and 714150 (BPA tranny Mid-C to Montana System).

RE: Fruits & Vegetables

Sender	bill.williams@enron.com
Recipients	['kate.symes@enron.com']
File	williams-w3/sent_items/116.

A truly useful fount of knowledge...

-----Original Message-----

From: Symes, Kate Sent: Monday, November 05, 2001 2:01 PM To: Williams III, Bill Subject: Fruits & Vegetables

Here you go..... A fruit is the matured ovary of a flower, containing the seed. After fertilization takes place and the embryo (plantlet) has begun to develop, the surrounding ovule becomes the fruit. Yum. I won't go on about the four types of fruit--simple, aggregate, multiple and accessory--which explain things like berries and pineapples.

A vegetable is considered to be edible roots, tubers, stems, leaves, fruits, seeds, flower clusters, and other softer plant parts. In common usage, however, there is no exact distinction between a vegetable and a fruit. The usual example is the tomato, which is a fruit, but is eaten as a vegetable, as are cucumbers, peppers, melons, and squashes. The classification of plants as vegetables is largely determined by custom, culture, and usage.

Okay, now the part which may surprise you. A grain is described as the dry fruit of a cereal grass, such as the "seedlike fruits of the buckwheat and other plants, and the plants bearing such fruits." So, grain is also a fruit.

David, I have made some revisions to the budget after spending some time with Amy Fitzpatrick in our HR department. Obviously this is a loose plan (the headcount for the RT group changes frequently)...but it should prove a bit more accurate than nothing. If you have any questions please just let me know. You can call me here at work at 503-464-3730 or on my cell phone at 503-887-3449. Thanks,

Bill

-----Original Message-----

From: Vandor, David Sent: Wednesday, September 05, 2001 10:15 AM To: Williams III, Bill Subject: 2002 Budget

Here is the G&A Expense worksheet to use as a guide for next year's budget. I've tried to put as many notes into your assumptions as I could find. For the 2002 plan, I already input salaries adjusted for merit increases (4.25%) and special pays. Please update the rest of the 2002 plan column and enter all assumptions used to calculate the amounts. Some examples of assumptions are if you know you are going to attend certain conferences, have a customer outing, plan travel expense per employee, or add additional headcount. If you could please complete this and send back to me by the end of the week, it would be greatly appreciated. If you have any questions, please let me know.

Delano Unit Outage 7/12-7/13

Sender	stanley.cocke@enron.com
Recipients	[shift.portland@enron.com]
File	williams-w3/bill_williams_iii/671.

Group,

Delano suffered a unit outage at approximately 1200 PDT on Thursday, 7/12. Pandol Unit 1 went down due to a boiler tube leak. They expect the unit to return around 1200 PDT on Friday, 7/13. They were prescheduled at 45mw on-peak Thursday, 30mw off-peak Thursday, and 30mw all day on Friday. Because of the unit outage they are only able to produce a total of 25mw. Bert has already purchased 20mw through HE22 to cover their peak schedule. Please purchase 5mw for HE23 on Thursday through HE12 on Friday to cover their Friday schedule. Before you do this call the control room to see if they are still expecting to be down through HE12 on Friday. They sold day-ahead at \$56. Please try to purchase for less than \$56, while still taking \$5 for yourselves (for example, if you can purchase for \$45, then sell it to Delano at \$50).

Also, we told the ISO that they would only be down through HE24 on Thursday, so they wouldn't cut our day-ahead schedule. You need to call the ISO real-time generation desk (916-351-2488) this evening around 10pm to tell them that you had to purchase replacement power for Delano through HE12 on Friday. Once again you might want to call the control room just before you call the ISO to confirm that they will be returning around HE12 on Friday.

If you have any questions please feel free to call me.

Thanks, Stan 503-235-5646 (home) 503-819-1132 (cell)

As of today, the marketing personnel will no longer be on call on the weekends. The 5808 extension will be forwarded to Enron along with the 5872 extension. There will be no preschedules or unit commitment plans developed over the weekend. Such preschedules and unit commitment plans will be generated on Friday or the day before the holiday until further notice.

Please call me at 915-543-4335 or Pete Serrano at 915-543-2045 if questions arise.

Please share this with other personnel as appropriate.

FW: Enron Canada dispatch

Sender	eric.linder@enron.com
Recipients	['bill.williams@enron.com']
File	williams-w3/bill_williams_iii/611.

-----Original Message-----

From: Fichten, Murray Sent: Thursday, July 19, 2001 2:10 PM To: Linder, Eric Subject: Enron Canada dispatch

EPMI will be taking over the dispatch of Enron Canada Corp.'s Sundance 3 and 4 units for the evenings of July 19-July 22 (beginning at 18:00 PDT and ending at 6:00 PDT every day, except July 20, where the start time will be 15:00 PDT).

Here is a note of things to remember:

? SD3 will be coming down for maintenance July 20 at approximately 20:00 PDT. The plant will call with updates periodically. Please record this information in the dispatch log. This can be accessed through the 'Albertapower' site. Scroll down from Fundamentals to Admin, and at the bottom of the page is the dispatch log.

? SD4 has all of its power offered into the Pool at \$5. That's 353MW @ \$5. Therefore you shouldn't have to worry about dispatching the plant up and down.

? Our telephone line (403-974-6900) has been forwarded to your line for the required hours. You will receive phone calls from the power pool or the plant on this line.

? The number for the plant is 780-960-7803 and the number for the power pool is 403-233-7403.

? You will have to access the power pool ETS website in case an energy restatement of our Sundance units is needed. This most likely won't happen. In case it does, the site is www.powerpool.ab.ca. You must Login (top right hand corner) as John A. Zufferli. Click on ETS, then Submission. You can then restate the offers of SD3 and SD4 as required.

? If you have any problems you can reach Bill Greenizan at 620-1180 or his pager at billgreenizan@epagenet.net.

Thanks,

Murray

SRA - getting ready to go commercial..

Sender	h..foster@enron.com
Recipients	['bill.williams@enron.com', 'greg.wolfe@enron.com']
File	williams-w3/bill_williams_iii/1033.

Bill/Greg:

Harbor Cogen is finishing up installation of its 30 MW steam turbine. This is in addition to their 80 MW gas turbine. This turbine is going to be dispatchable by the ISO. We will need to communicate dispatch instructions back to Harbor. I still have a ways to go to fully understand how this is going to work with respect to payments, etc., but one thing we need to do is get set up so we can receive dispatch instructions from the ISO as we do for the ADS. Apparently, the SRA is a little different than the ADS. Can you call this guy and figure out what we need to do to receive SRA dispatch instructions from the ISO?

Thanks

C

Have you talked with Fran about this yet? Or would you like me to?

-----Original Message-----

From: Chang, Fran Sent: Friday, October 26, 2001 2:53 PM To: Symes, Kate; Williams, Bill Subject: RE: El Paso Annuities - Year 2000

Kate and Bill:

I have received documents from Settlements indicating the annuities per your 10/10 email (as attached below) have been captured as upcoming prior month adjustments (i.e. pmas). These are the pmas associated with El Paso clean up for Feb, March, and June 2000 ONLY. The annuities you entered for Sep and Nov 2000 shall come later but possibly after this month-end (10/31).

The total impact of Feb, March, and June 2000 annuities will be +\$108,388.02. Although they will come through on regular desk analysis for 11/30, since I have received documents from Settlements indicating this \$108,388.02 have been captured successfully, if you like we can take it early, which means taking it on 10/31. Let me know if you have a preference.

Also, at this moment I am working on all other pma items which you shall expect to go into your P&L this month-end. As soon as I have them ready I'll send you the details for review.

-Fran -----Original Message----- From: Symes, Kate Sent: Wednesday, October 10, 2001 6:13 PM To: Clemons, Amy Cc: Williams III, Bill; Thompson, Virginia Subject: El Paso Annuities - Year 2000 Importance: High

I have entered the following annuities to account for discrepancies incurred during the checkout process of February, March, and June 2000. This is per records generated by Amy Clemons. Please direct any questions to Amy or me.

February 2000 Sales - 813409 Purchases - 813416

March 2000 Sales - 813417 Purchases - 813418

June 2000 Sales - 813419 Purchases - 813420

Net DPR impact to the EPMI Short Term West Hourly book will be \$108,388.02. All annuities are scheduled to calculate at HE 24 today.

Cell phones...

Sender	bill.williams@enron.com
Recipients	['jill.chatterton@enron.com']
File	williams-w3/sent_items/246.

Jill, I was being sarcastic about the \$16000. Could you send an email to each group member giving them their average usage since you started or the last 3 months (AT&T should have this info). If you could send me an email breaking out the costs that would be great as well. I am not that concerned with the new phones--but would like to know what was spent. I appreciate the help.

Thanks, Bill

-----Original Message-----

From: Chatterton, Jill Sent: Friday, September 14, 2001 9:50 AM To: Williams III, Bill Subject: RE: Cellular Phone Budget

The answer to that question is NO you haven't spent \$16,000 in just new phones. Your group was going over their minute limit before I even started here it seems. Do you still want me to go through the last bill and let you know what was spent on each individual? I'll send out the e-mail today. I can go through all the bills and let you know what was spent on new

phones, it will take a while but I could figure it out.

Jill

-----Original Message-----

From: Williams III, Bill Sent: Friday, September 14, 2001 9:37 AM To: Chatterton, Jill Subject: RE: Cellular Phone Budget

Absolutely, Please send an email to the group explaining to them that they will be billed if they go over \$55 a month. Let them know they can set up a different plan if they need (I would prefer they stick with the group calling plan and add minutes...but the choice is theirs). Let's put this in effect by October. I am seeing \$20000 ytd as of June in cell phone charges (and \$55 x 13 group members x 6 months should equal \$4290--have we really spent \$16000 on new phones? Thanks, Bill

-----Original Message-----

From: Chatterton, Jill Sent: Friday, September 14, 2001 9:09 AM To: Williams III, Bill Subject: RE: Cellular Phone Budget

Yeah that's a good idea. Some of the bills lately have been bigger then others and that is because of purchases of new phones. The rate you should be paying right now per employee is \$49.99 PLUS taxes which usually adds up to be about \$53 to \$55 a month. Granted most of your group goes way over that. I set Mark Guzman up on a plan yesterday that is 1100 min. per month and he will probably be paying about \$69 out of his pocket if you want to cap it at \$50 bucks. Do you want me to send an e-mail out to your group to let them know they should come see me about different plans? I'll give you the latest report by the end of today from your latest bill. Also to be aware that if I put everyone on a different plan they will NOT have the free group calling.

Jill

-----Original Message-----

From: Williams III, Bill Sent: Friday, September 14, 2001 8:53 AM To: Chatterton, Jill Subject: Cellular Phone Budget

Jill,

I need information regarding our monthly cell phone costs. I would like to cap per employee costs at \$50 per month on the group calling plan. Effective in October, I would like employees billed for any amount they have over \$50 per month on their cell phone. If an employee needs more minutes I would like to structure a plan to allow them to purchase more minutes through us--with them paying the extra per month.

Thanks, Bill

From: Symes, Kate Sent: Wednesday, October 24, 2001 12:34 PM To: Williams III, Bill Subject: RE:

Bill -

Good to hear you're a big believer in time off. How about a compromise? I'll wait until the middle of next month, and then I'd like to take off Nov. 12-16. That way, I'll be available to settle October, November, and hopefully many months to come. Sound good? Let me know. And I appreciate your understanding.

Kate

-----Original Message-----

From: Williams III, Bill Sent: Wednesday, October 24, 2001 12:11 PM To: Symes, Kate Subject:

Kate, It is the end of the month and just like everyone else in your group you are needed to be at work at certain times. Granted, renewed motivation can be a great thing to help you attack various job functions with vigor, and I am a big believer in it. We have in the past discussed that I would prefer that you take personal days/vacation days in the middle of the month and at the end of the week. If you would like to plan a longer vacation in advance, again like everyone else in your group, please just let me know. I appreciate your understanding.

Bill -----Original Message----- From: Symes, Kate Sent: Wednesday, October 24, 2001 12:03 PM To: Williams III, Bill Subject: RE: Vacation

I'm glad to know that I have only one purpose here. If that's the case, then maybe I should just start taking the other three weeks of the month off. And the purpose was NOT not to settle October - which is of course something I await with bated breath. The purpose was to relieve some of the pressure I'm starting to feel and ideally return with renewed motivation to do my job well. While I realize this should be something I do all the time, without occasional days off for incentive, I think you can understand that sometimes it just doesn't work that way. I can hardly believe I'm so indispensable you couldn't survive two days without me with a week's notice. Come on....

-----Original Message-----

From: Williams III, Bill Sent: Wednesday, October 24, 2001 11:56 AM To: Symes, Kate Subject: RE: Vacation

How? Unless the purpose was to not settle October...which would defeat A purpose of you working here...

-----Original Message-----

From: Symes, Kate Sent: Wednesday, October 24, 2001 11:19 AM To: Williams III, Bill Subject: RE: Vacation

Bill -

That completely defeats the purpose of my taking time off. Forget about it.

Kate

-----Original Message-----

From: Williams III, Bill Sent: Wednesday, October 24, 2001 11:08 AM To: Symes, Kate Subject: RE: Vacation

Kate, If you are flexible, I would prefer if you took the 8th and 9th of November off. This would allow us to settle up PMA's at the end of October and make sure we are settled going into November.

Let me know if this is what you would like to do.

Thanks, Bill

-----Original Message-----

From: Chang, Fran Sent: Tuesday, October 30, 2001 12:49 PM To: Symes, Kate; Williams III, Bill Subject: Prior Month Adjustments going into 10/31 P&L Importance: High

Kate and Bill:

Attached please find the latest prior month adjustments to be entered in your P&L for 10/31/01. The total amount will be:

STWHOURLY: -\$12,322.87, excluding El Paso clean up for Feb, March, and June 00' totaled +\$108,388.02 (* if you decided to taken the Elso Paso \$108,388.02, the total for WHOURLY will be +\$96,065.15)

STWBOM: -\$5,331.90

Please also note the attached file is preliminary. There could be more to come from Settlements between now and month-end. I'll update you if that happens. Please take a look at the items listed now and let me know if you have any questions. Please also confirm if you like to take the \$108,388.02 at this month-end (10/31) or next month-end (11/30).

Thank you, Fran
